## What is Skin's Restaurant?

Taking care of the skin has never been so easy, effective and delicious for our face as with SKIN'S RESTAURANT, the first certified organic, natural and vegan cosmetic brand based on the **nutricosmetics of the gastronomic diet**.

Our health is directly related to our diet. It has always been said that “we are what we eat” and skin is no exception; **a balanced diet with natural foods is synonymous with energy and health**.

One of the most significant cultural treasures that exists is the gastronomic tradition. In the Mediterranean diet, its fame is recognized worldwide for containing the best relationship of natural foods, diversity and gastronomic quality.

What better way to combine all those treasures than by creating a **line of products based on food**, a unique line in the world designed to cover all the needs of our skin, **a line “cooked” with natural products from Mother Earth** such as olive oil, orange, lemon, carrot, oatmeal, soy ... **SKIN'S RESTAURANT !!!**

**A DIET FOR YOUR SKIN** with a complete menu for body, mind and spirit so that you can start the day giving a boost of energy to your skin with fruits or enjoy an afternoon snack with cereals or end a hard day of work with a relaxing treatment based on plants and aromatic oils.

**CERTIFIED natural, ecological and vegan cosmetics, with recyclable packaging and manufactured in Spain** by a laboratory with a tradition of 3 generations with awards for innovation, trajectory and R&D.

**Feed your skin healthily with Skin's Restaurant.**

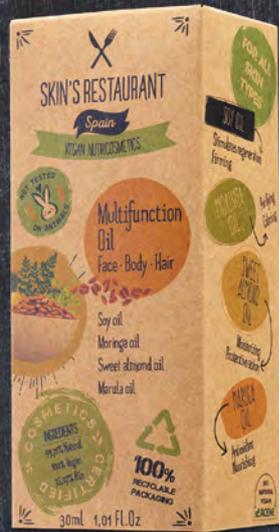

## Why do we think transparency is so important?

Internet is full of foreign products that are sold as Spanish, vegan products that contain beeswax or organic products that do not contain even 5% of eco-certified actives.

At Skin's Restaurant we are absolutely committed to transparency. It is for this reason that the list of each of our products clearly details the natural or BIO origin of each of the ingredients.

Look at the product sheet and check by yourself the origin of each ingredient.

## All of our products are certified

### What does it mean for a product to be certified?

In the market you can find a lot of cosmetic product that claims to be natural, vegan and eco. But it is not always true. At Skin's Restaurant we are totally and absolutely committed to transparency and the best way to do this is for our formulas to be reviewed by a natural, vegan and organic product certifier. This is why all our products are certified by ACENE.

### What is a vegan, Natural or BIO product?

Nowadays it is fashionable to say that a product is Vegan, Natural or even BIO. But most consumers, and even some brands, are unaware of what each term means.

### According to ACENE:

A product is **BIO** when it contains 99% of ingredients of natural origin or products of animal origin and a minimum of 22% of certified organic origin.

A product is **NATURAL** when the total ingredients are of natural and mineral origin.

A product is **VEGAN** when it does not contain any product or by-product of animal origin. In addition, to be considered Vegan by ACENE, it must be natural or BIO.

If you are looking for vegan, natural or organic products, take a good look at the information provided by the manufacturer brand because you will find many surprises...

### What do the ACENE certifications mean?

#### ACENE/BIO:

A BIO (ACENE / BIO) product will be considered when 99% of the total ingredients are of natural origin, including water or products of mineral origin and have in its formulation a minimum of 22% of certified organic origin. Under no circumstances will raw materials, products, or by-products that have been tested on animals be accepted.

#### ACENE/NAT:

It will be considered a NATURAL product (ACENE / NAT) when the total of ingredients are of natural and mineral origin, including water. Under no circumstances will raw materials, products or by-products that have been tested on animals be accepted.

#### ACENE/VEGAN:

A VEGAN product (ACENE / VEGAN) will be considered when the total formulation is vegetable or mineral and does not contain any product or by-product of animal origin. Of course, they have not been tested on animals or overexploitation. In addition, it must meet the requirements of ACENE/NAT or ACENE/BIO certificates.

# ENERGIZING DAY CREAM

## THE PERFECT COCKTAIL To START THE DAY

Begin your day with energy and vitality with a portion of fruits to provide all the necessary vitamins to fight the environmental factors that affect our skin.

## How to use

Use every day on clean and toned skin.

Put a small amount on your fingertips.

Using both hands, spread over the face outward starting from the centre ending at the neck and décolleté.

Avoid the eye contour area.

## ORANGE:

Its content in vitamin C, quercetin, provitamin A and folic acid provides antioxidant properties and intervenes in collagen synthesis, giving firmness and elasticity to the skin.

## PROBIOTICS:

Indispensable to stimulate the biological defences of our skin; they manage to counteract the adverse effects of the environment and protect the skin from external environmental aggressions. For a healthy dermis, it is essential to have a balanced skin microbiota; probiotics have a protective effect on this organ and function as a barrier against microbial invasion, something necessary to develop a strong immune system.

## MANDARIN EXTRACT:

The contribution of vitamin C that tangerines provide increases our defences and stimulates our immune system. Vitamin C has great effects to help show skin free of imperfections by stimulating collagen production, achieving re-densification of the dermis. In addition, the high concentration of antioxidants present in mandarins fights free radicals and protects our skin, preventing premature ageing.

## GREEN TEA EXTRACT:

It contains vitamins C and E, ideal as natural antioxidants for our skin well-being. It also has isoflavones and catechins that are perfect components to prevent cell ageing. In addition, it is rich in stimulating ingredients, such as alkaloids, which help keep vital cellular processes active at night. It has excellent antioxidant power. In addition, tea contains tannins and catechins being the substances responsible for protecting the skin from external agents, such as the sun. In this way, the ageing process is delayed, keeping the dermis fresh and young. It fights acne; the catechins in green tea have antibacterial power and can reduce excessive hormonal activity, one of the main causes of the appearance of acne.

## SOOTHING NIGHT CREAM

Proper nutrition is vital from the morning, but it is at night when our cells begin the division process to restore the damage suffered in the epidermis throughout the day and when the entire cell proliferation process is generated, allowing the renewal of the layers of the skin. This is why it is necessary to treat our skin with the best nutrients to fight dehydration and loss of firmness.

Serve your skin a portion of the best natural oils that provide intense hydration along with aromatic plants, creating a pleasant sensation of relaxation and calm on your skin. In addition, blood flow will be improved, regulating the capillaries of your skin and providing better cellular oxygenation.

Use it every day to see how dull tone, dehydration, and flaccid skin are reduced for more radiant, fresh, and smooth skin.

### How to use

Cleanse and tone the skin, then apply the cream with a gentle circular massage over the entire skin of the face. Avoid contact with mucous membranes and eyes.

### OLIVE OIL:

Thanks to the wide variety of antioxidants, minerals and vitamins it contains, its main function is to protect our skin from the different external agents that damage our skin. Furthermore, due to its high content of natural fatty acids and its contribution of vitamins E and K, which have a series of factors capable of regenerating the skin. Thus, olive oil is a magnificent tool to fight against premature ageing healthily and naturally and maintain the skin's natural elasticity and make it look soft and smooth.

### CAMOMILE:

It is one of the most used plants in the field of natural medicine since ancient times. This plant is widely used as a soothing or digestive remedy, given its wide range of properties. It works against tired, sensitive and reddened skin. This powerful ingredient stimulates the proliferation against cellular damages and inflammations of the skin in a natural way. Applied in the facial routine, it relieves redness and skin rashes. With softening properties thanks to its content in essential oils and flavonoids, such as bisabolol, A and B and matricin, these therapeutic substances can contribute to the regeneration of the skin without altering its physiological pH.

### ROSE HIP OIL:

It comes from the seeds of the wild rose bush, native to the Andes. It has a powerful repairing effect on the skin, helping in the formation of collagen and elastin fibres. Also, prevent the appearance of marks on the skin and, in turn, prevents the loss of water, thus increasing the ability to hydration of the skin surface, making the skin smooth and luminous. Being composed mainly of essential fatty acids such as linoleic acid (omega 6) and linolenic acid (omega 3), antioxidants and vitamins A, C and E, it has enormous power against free radicals that cause skin ageing. Therefore it is a powerful anti-ageing product that fights the appearance of wrinkles and reduces spots caused by sun exposure.

### 100% NATURAL LEMON EXTRACT:

Lemon contains vitamins and a characteristic acidic pH that helps to whiten dark spots on the skin caused by exposure to the sun or hormonal changes. In addition, it has a high concentration of potassium, an essential element for life and beneficial for the treatment of dull skin. It achieves extra energy and luminosity, leaving the skin radiant and strengthened.

### ASIAN CENTELLA:

Its main components are triterpenes and glucosidic esters, which show their efficacy in treating skin irritations and wrinkles. Also, reduce the cellular damage caused by the passage of time due to the proliferation of elastin. With a double-action mechanism: on the one hand, they increase the synthesis of collagen and mucopolysaccharide acids and, on the other, they inhibit extracellular oxidation, managing to soften skin imperfections.

# INGREDIENTS:

### OATMEAL:

It contains polyphenols, that is, antioxidant molecules, which act as anti-inflammatory agents. With trace elements such as magnesium, manganese, phosphorus, copper, iron, selenium and zinc. It also provides vitamin B1, that helps improve collagen production and fights the effects of free radicals and oxidative stress. In addition, it has a flash effect that acts on skin cells, improving the appearance of fine lines and wrinkles, reducing the depth of the facial furrow. <sup>14</sup>

### CANNABIS OIL:

It has a great nutritional power and contains the ideal ratio of Omega 6 and Omega 3 to nourish our cellular needs while playing a preventive role in skin ageing. It calms and restores dry and damaged skin from the inside. Its high regenerative power applied to the dermis makes it smooth and silky improving all-natural healing mechanisms. It has unique anti-inflammatory properties that are not found in other oil; added to its antioxidant properties, makes Cannabis oil the best option to help care for and detoxify the skin, respecting the natural processes of the skin.

### 100% NATURAL LEMON EXTRACT:

Lemon contains vitamins and a characteristic acidic pH that helps to whiten dark spots on the skin caused by exposure to the sun or hormonal changes. In addition, it has a high concentration of potassium, an essential element for life and beneficial for the treatment of dull skin. It achieves extra energy and luminosity, leaving the skin radiant and strengthened.

# REGENERATING SERUM

Feed your skin whenever it needs it! When your skin needs to be nourished, treating the skin just once a day is not enough. At any time, day or night, and in any place, thanks to its easy application, this light and silky serum will provide your skin with a delicious snack that will nourish and hydrate your skin instantly, thus revitalizing and brightening your skin.

## How to use

With clean and dry skin, apply a few drops of Serum to the fingertips and spread the product over the entire surface of the face.

Massage the face, neck and décolleté until completely absorbed, avoiding the area around the eyes.

\* Guarantees the safety and good conservation of the formula, for a pleasant sensory experience.

**DERMATOLOGICALLY TESTED.**

A mixture of the best eleven oils providing intense nutrition for the skin and hair. It can be used to hydrate your skin at any time of the day with absolute safety since it does not clog pores like many other chemical oils. It provides a pleasant feeling thanks to its easily absorbed formula without any accumulation of oil.

## How to use

For its application, both on the skin of the face or body, as well as on the nails or hair, it is necessary to put a few drops in the palm of the hand and later massage on the indicated area, avoiding the area around the eyes.

# MULTIFUNCTION OIL

## SWEET ALMOND OIL:

Rich in proteins of vegetable origin, almond oil has a significant nourishing action that makes it ideal for facial care. In addition, it stands out for the flexibility it provides to the skin, moisturizing, nourishing it, and preventing ageing prematurely. It contains antioxidants and vitamin E, and some B vitamins such as vitamin B1 and vitamin B6, all crucial things for skin and hair care, for their regeneration and maintenance. Its antioxidant compounds support the cell regeneration process and minimize the negative impact of the sun's UV rays. It also helps to calm anxiety, nerves and stress.

## MARULA OIL:

Originally from Namibia, it has been used for centuries to hydrate and repairs the skin. Its most special characteristic is that it has 60% more natural antioxidants than other oils. It contains 72% Omega 9 and linoleic acid, sterols, flavonoids, catechins, and stearic acid. This composition gives it antimicrobial, antioxidant and anti-inflammatory properties. These qualities make marula oil an excellent acne treatment and slow down the ageing of tissues. And as if this were not enough, it is ten times more resistant to oxidation than olive oil, keeping its properties intact for longer.

The mixture of these powerful oils restores softness to your skin and deeply nourishes the epidermis.

## MORINGA OIL:

Special to enhance the skin's natural vitality helps to keep the skin moisturized and soft, combats the signs of ageing and loss of elasticity, reduces inflammation, and helps take care of the skin and reduce scars and blemishes. It is considered a dry oil, which means it will quickly absorb into the skin without leaving a greasy residue. In addition, it contains numerous antioxidants and is resistant to oxidative degradation, which means that the oil does not go rancid for several years after being produced and therefore has a long shelf life.

## SOY OIL:

Thanks to its high content of vitamins, minerals and, above all, isoflavones with antioxidant properties, soy has been found to help keep skin hydration levels consistently high. And it is that this plant acts as an antioxidant and prevents the action of free radicals working on the lipid profile of the skin and favouring the creation of collagen. In addition, it works on the spots caused by menopause or exposure to the sun. All because soy is a high protein legume, rich in lecithin and omega-3 and omega-6 fatty acids. It provides minerals such as iron, copper, magnesium, phosphorus, potassium, manganese and vitamins such as K, thiamine, riboflavin and folates. This legume is defined as an intelligent moisturizing active principle since although all types of skin are improved by soy, dry and mature skin are the ones that benefit the most since it acts as a moisturizer, regenerator, nourishing, softener and skin protector. It also contains isoflavones that promote the proper functioning of cellular metabolism, helping the skin to breathe better.

# INGREDIENTS:

**DERMATOLOGICALLY TESTED.**

### ORANGE WATER:

Its content in vitamin C, quercetin, provitamin A and folic acid provides antioxidant properties and intervenes in collagen synthesis, giving firmness and elasticity to the skin.

### WHITE HAWTHORN:

Hawthorn flowers contain flavonoids, chlorogenic acid and proanthocyanidins as the main polyphenolic compounds. Among the flavonoids, the derivatives of hyperosides, rutosides and vitexins stand out for their excellent antioxidant and decongestant action, increasing blood circulation and cellular oxygenation in the dermis.

### ARABIAN JASMINE:

It contains iridoid glycosides, flavonoids and protocatechuic acid, as well as essential oils. It is scientifically proven to increase collagen and have anti-inflammatory properties and exhibit strong anti-tyrosinase activity and therefore act as a depigmenting agent.

### PEA-EXTRACT:

Rich in protein peptides that provide interesting cellular actions. Due to the high concentration of antioxidants such as carotenoids, especially lutein, flavonoids, and a high content of vitamin C, vitamin B1, vitamin B2, peas act as antioxidants preventing cell ageing and protecting the body against free radicals, providing a barrier effect on the skin.

### OATMEAL:

It contains polyphenols, that is, antioxidant molecules, which act as anti-inflammatory agents. With trace elements such as magnesium, manganese, phosphorus, copper, iron, selenium and zinc. It also provides vitamin B1, that helps improve collagen production and fights the effects of free radicals and oxidative stress. In addition, it has a flash effect that acts on skin cells, improving the appearance of fine lines and wrinkles, reducing the depth of the facial furrow.

# ANTIOXIDANT EYE CONTOUR

All the benefits of the antioxidant vitamins of the orange are extracted naturally and ecologically to protect and care the most sensitive skin of the face. It protects the skin by balancing the cell barrier, fighting the symptoms of fatigue and tiredness. A perfect cocktail for every day.

100% RECYCLABLE PACKAGING

Use every day to see dull tone, dehydration and sagging skin diminish for more radiant, fresh and plump skin.

A perfect cocktail for every day.

## How to use

Use every day on clean and toned skin. Put a dose on your fingertips and using both hands, spread over the contour of the eyes without coming into contact with the mucous membranes.

## SOLID ANTI-FRIZZ SHAMPOO

A step to the future in natural hair biotechnology. Feed your hair with this innovative and gentle solid shampoo with coconut, pure cocoa and onion: nature-friendly natural conditioners with an antistatic effect. It manages to repair the hair fiber, in-depth cleansing, while adding shine and improving the appearance of the hair.

A natural solid shampoo that leaves your skin soft, nourished, without tension and with a high percentage of ingredients of natural origin, sulfates-free, Vegan and cruelty free.

Its formulation in soapbar format: cleanses, hydrates, soothes and protects the dermal barrier based on mild creamy surfactants. Revitalize your five senses while you take care of yourself with the solid shampoo suitable for all skin types, with excellent biocompatibility.

### COCOA BUTTER:

Extracted during the chocolate manufacturing process, it is an edible natural vegetable fat derived from cocoa that offers countless benefits for hair care. Cocoa is a great antioxidant food as it contains a significant amount of polyphenolic antioxidants and flavonoids. In addition, it is rich in healthy fat due to its high concentration of saturated fat that ranges between 57 and 64 percent of the total content. The main fatty acids it contains are: stearic acid, palmitic acid, myristic acid, arachidic and lauric acid.

### COCONUT OIL:

It is a fatty substance that contains about 90% saturated acids, extracted by pressing the pulp of coconuts. Known for its high moisturizing and nourishing properties, it also adds shine and softness, without leaving hair greasy. It is the perfect ally to fight against frizzy hair. On the other hand, it also protects the hair fiber avoiding hair breakage and giving it strength. It can also help fight dandruff, as it has fungicidal properties.

### ONION EXTRACT:

It has anti-inflammatory, antifungal and antibacterial properties. Onion is an effective remedy for tackling different hair problems at the same time. It activates blood circulation in the scalp, which accelerates hair growth and prevents hair loss. It also regulates excess oil and itching on the scalp.

## How to use

Get the cleansing foam. Massage your scalp gently and rinse with plenty of water. Avoid contact with eyes and mucous membranes.

Recommendation: to make it last longer, store dry or in a container that will not accumulate water.

## INGREDIENTS:

## SILVER:

It is a powerful natural antibiotic that can help us fight different pathogens at the same time and has the advantage of not presenting allergic reactions or side effects. It has the ability to eliminate fungi and bacteria.

## SHEA BUTTER:

It is a very respectful ingredient with sensitive skin, so it prevents armpits from becoming irritated, thanks to its great calming effect. In addition, it has nutritional properties so it helps control sweating, helps regulate excess sweat, but without clogging the pores.

## SWEET ALMOND OIL:

Thanks to its moisturizing and antioxidant properties, this oil provides better circulation, which can help protect the dermis. It defends your skin from bacteria and ensures that the pores are not clogged. Healthy armpits without damaged follicles are vital to prevent bad odour.

# REFRESHING DEODORANT

It manages to eliminate all the toxins that the skin accumulates due to the use of chemical products. Thanks to silver, it purifies and neutralizes bacteria that cause bad odour.

Unlike conventional deodorants, it does not contain aluminium, chemical ingredients, alcohol, microplastics or nanoparticles. It does not clog pores, neither stains the skin.

With a single application you will obtain an effectiveness of between 2 and 7 days, depending on each person.

It is designed so that playing sports, leading an active lifestyle or bathing will not reduce its effectiveness.

## How to use

Shake before use.

Apply to completely clean and dry armpit. Spread with fingertips with a gentle massage until completely absorbed. Repeat when necessary. How often should you apply it? The physiology of each person's skin is different. At first you will have to try it to know how effective it is on your skin. The first time you apply it, you should not use it again until the unpleasant smell appears. This way you will know every how many days you should use it.

## INGREDIENTS:

SKIN'S RESTAURANT

Spain

VEGAN NUTRICOSMETICS

Get to know us a little better ...

### NATURAL PRODUCTS

All our products are made with more than 97% natural, organic and vegan products.

### NOT TESTED ON ANIMALS

Our products are not tested on animals according to European standards.

### CERTIFIED PRODUCTS

All our formulas are certified by ACENE, a natural, vegan and organic product certifier.

### CONSTANT R&D

We constantly invest in R&D to improve and offer new products.

### TRANSPARENCY

At Skin's Restaurant we are committed to total transparency. That is why our INCI list specifies the natural or BIO origin of each of the ingredients

### WE ARE MANUFACTURERS

At Skin's Restaurant we formulate, manufacture, fill and pack our products. In this way, we assure you will always have the best products at the best price.

### SPANISH PRODUCT

Many products that are sold online as Spanish products come from other countries and even from different continents. However, all Skin's Restaurant products are manufactured entirely in Spain. In Alcoy, to be exact.

### 100% GREEN ENERGY

Certified Green Energy of 100% renewable origin is used for all manufacturing processes, positively contributing to the environment. Furthermore, all of our packaging can be fully recycled.

# OUR MANIFESTO. YOUR MANIFESTO

We understand cosmetics as a time to disconnect, dedicate time to yourself and enjoy.

It is your moment, it is your ritual. Apply the products as you feel best, as your skin needs it.

We all have imperfections, we do not try to hide them, but to improve and provide health.

We are not creams, we are a diet for your skin.

We believe in experience, that is why our aromas, textures and sensations are thought out in detail.

We promote conscious buying. Use all the product and then recycle it in the appropriate container. In the product sheet we tell you how to do it.

We do not sell anything that we do not use and we believe 100% in.

We only have one Earth, so we have to take care of it even more. Our products are vegan, BIO and natural. All of them certified by ACENE. Furthermore, we only use 100% renewable energy.

We strive to offer high-quality products at competitive prices, and we can do that by being manufacturers. We formulate, manufacture, fill and pack our products. The entire process is carried out in Spain, specifically in Alcoy.

We believe that innovation is necessary, that is why we are always creating new formulas to bring you the best products and the latest trends.

Total transparency is no longer a thing of the future, but of the present. In our products we clearly detail the natural or BIO origin of each of the ingredients.

All Skin's Restaurant products are manufactured in Spain by Laboratorio Español de Investigación Cosmética, awarded lab for the Best Business Project 2014 and Best Trajectory in 2015 given by the European Center for Innovative Enterprises (CEEI) and the Valencian Institute of Business Competitiveness (IVACE). In 2017 awarded with the Golden Medal by AEDEPI (Spanish Association of Image Professionals). Winner of the Health Beauty & Wellness award for the Best Cosmetic Manufacturing and Specialist in R&D -Spain 2020 and Best Private Label Cosmetic Manufacturing Specialist – Spain 2021 awarded by Lux Life Magazine. Recently awarded by the Chamber of Commerce of Alicante for the Best Business Reinvention COVID-19 2021 and by the Chamber of Commerce of Alcoy for the Best Business Internationalisation 2022. The laboratory has also been awarded for the Best Natural Product 2021/2022 by the Spain Prestige Awards.

Customers of 70 countries use the products manufactured under our own safety protocol that, besides conforming exhaustively with ISO 22716:2007 (Good Manufacturing Practice), adds important cosmetic-vigilance measures that will provide extra security to the products offered to our customers.

**3 generations dedicated to result-driving cosmetic manufacturing since 1965.**

**Quality control is our commitment; Innovation is our vocation.**

Skin's Restaurant is a brand of Laboratorio Español de Investigación Cosmética, SLU.
